DIVISION OF ENVIRONMENTAL PROTECTION

Jim Gibbons, Governor

Allen Biaggi, Director

Leo M. Drozdoff, P.E., Administrator

NOTICE OF PUBLIC HEARING

Bureau of Air Pollution Control

Web Posting Date: 12/19/08

Pursuant to Nevada Revised Statutes (NRS) Chapter 445B, the Nevada Administrative Code (NAC) Chapter 445B, and the Clean Air Act, the Division of Environmental Protection is issuing the following notice.

The Director received an application to issue a **Revision to Class II Air Quality Operating Permit AP2992-1473** (FIN #A0511) from the following applicant:

Bango Oil, LLC
22211 Bango Road
Fallon, Nevada 89406

The project is located in western Nevada at 22211 Bango Road, approximately 14 miles west of Fallon, Nevada in Churchill County. The Director has prepared tentative determinations regarding the revised operating permit that, in brief, are the following:

- Bango Oil, LLC is a used oil and recycled fuel oil re-refining facility.
- The revised permit is for new construction and revised operation of a used oil and recycled fuel oil re-refining facility that will process up to 2,400 gallons/hour of used oil and recycled fuel oil into value added products. The proposed revision will reconfigure the permit to reflect current operating conditions; double the volume of used oil that can be refined; modify the existing thermal combustor that will be used for treating oily waste water; modify emission limits and operating parameters for cooling tower #1; add two cooling towers; add a process heater and associated re-refining equipment that will allow for a doubling of the amount of used oil and recycled fuel oil that can be refined; add a hydrotreating filtration system that will be used to purify refined oil products; and add a 1.68 MMBtu/hr steam boiler as a non-permitted emission unit.
- The revised emissions from the facility will not exceed 5.24 tons/yr of PM₁₀ emissions, 5.24 tons/yr of PM emissions, 32.30 tons/yr of NO_x emissions, 12.23 tons/yr of CO emissions, 71.89 tons/yr of SO₂ emissions, and 5.17 tons/yr of VOC emissions.
- Adverse ambient air quality impacts are not expected based on air dispersion modeling analysis.

Pursuant to NAC 445B.3364(7), Public Notice was provided to the persons on a mailing list developed by the Director and made available to the general public in the Lahontan Valley News on September 17, 2008.

This Document is for Electronic Distribution

Pursuant to NAC 445B.3364(9), the Director is providing notice of a Public Hearing on the proposed action. The Public Hearing will be held on Wednesday, January 28, 2009 in Fallon, Nevada at 6:00 pm at the following location:

Churchill County Administration Building
Chambers, Suite 145
155 North Taylor Street
Fallon, Nevada 89406

Public comments will be received at the Nevada Division of Environmental Protection, Bureau of Air Pollution Control, until close of public hearing on January 28, 2009.

Please bring the foregoing notice to the attention of all persons whom you know may be interested in this matter.
